THURSDAY 10 DECEMBER

h. 17.00-19.45 (5.00-7.45 PM CET)

Moderator: **P. Persichetti**

- 17.00 - 17.10** Introduction - **V. Cervelli**
- 17.10 - 17.30** "Carlo Umberto Casciani Memorial Lecture":
Facial composite tissue allo-transplantation - **B. Pomahac**
- 17.30 - 17.45** Reconstruction of youth - **S. Cohen**
- 17.45 - 18.00** SVF assisted mini facelift - **T. Tiryaki**
- 18.00 - 18.15** Micro fat grafting: a powerful tool in the treatment of eye
prominence - **M. Pelle Ceravolo**
- 18.15 - 18.30** Surgical management of brow-upper eyelid interface
N. Celik
- 18.30 - 18.45** Large volume fat grafting to the neck, regeneration and
rejuvenation - **L. Bucky**
- 18.45 - 19.00** New concepts & results in face regeneration
and the Salamander project - **M. Pellon**
- 19.00 - 19.15** Indications and refinements of the subperiosteal midface lift
M. Yaremchuk
- 19.15 - 19.45** Discussion

Discussants: **M. Klinger, J. Planas**

FRIDAY 11 DECEMBER

h. 18.00-20.00 (6.00-8.00 PM CET)

Moderator: V. Cervelli, R. Llull

- 18.00-18.15** BBL – Current safety update - **D. Del Vecchio**
- 18.15-18.30** The tissue regeneration in reconstructive and aesthetic breast surgery to enlarge or reduce shape and volume - **D. De Fazio**
- 18.30-18.45** Autologous fat grafting improves sensory nerve regeneration in nipple-sparing mastectomy - **B. Longo**
- 18.45-19.00** Eleven years experience in total breast reconstruction after nipple sparing mastectomy: clinical and aesthetic evaluation
F. Santanelli di Pompeo
- 19.00-19.15** Modern augmentation mammoplasty: achieving natural results
A. Sterodimas
- 19.15-19.30** Optimizing aesthetic results in free flap breast reconstruction: fat grafting and Hamdi's Hammock - **M. Hamdi**
- 19.30-20.00** Discussion

Discussant: D. Ribuffo, M. Salgarello

SATURDAY 12 DECEMBER

h. 14.00-16.00 (2.00-4.00 PM CET)

Chairman: K. Yoshimura

Moderators: V. Cervelli, S. de Fazio

- 14.00 -14.05** Introduction and Welcome remarks – **K. Yoshimura**
- 14.05 -14.15** ISPRES-ICRS Twining – **S. de Fazio**
- 14.15 -14.25** Fat grafting and cancer - **P. Rubin**
- 14.25 -14.35** Instrumentation and facial fat grafting without centrifugation and enzymes – filters, cannulae and injection techniques
B. Kinney
- 14.35 -14.45** What do we know now about regenerative surgery?
L. Pu
- 14.45 -14.55** New trends in breast augmentation with fat grafting: implant conversion with fat and hybrid implant-fat breast
A. Kaalaji
- 14.55 -15.05** Regenerative surgery: fundamentals & beyond simple fat grafting - **R. Khouri**
- 15.05 -15.15** "Liquid Rhinoplasty" - How to use adipose tissue in nasal corrections - **E. Siolo**
- 15.15 – 15.45** Discussion
- 15.45 – 16.00** Closing remarks – **V.Cervelli, S. de Fazio, K. Yoshimura**

SATURDAY 12 DECEMBER

h. 17.00-19.30 (5.00-7.30 PM CET)

Moderator: **V. Cervelli, N. Piccolo**

- 17.00-17.15** Immune response to implantable materials and implications in wound healing - **E. Tasciotti**
- 17.15 -17.30** Mechanocontrol of subcutaneous layers regeneration in high risk wound healing - **F. Bassetto**
- 17.30-17.45** Immunomodulation in wound healing with silver sulfadiazine - **B. De Angelis**
- 17.45-18.00** Skin-engineering: the Zurich experience - **J. A. Plock**
- 18.00-18.15** Adipose stem cells and biomaterials: has each key its own keyhole? - **G. Storti**
- 18.15-18.30** Cell therapy products for wound healing - **G. Magalon**
- 18.30-18.45** Tissue engineering: the near-future or lost in translation - **J.J. Vranckx**
- 18.45-19.00** Experimental biological hydrogels for regenerative surgery - **J. Gimble**
- 19.00-19.30** Discussion

Discussants: **A. Orlandi, O. Parolini**

19.30 Closing remarks – **V. Cervelli**
